Sounds like you are not aware that Jill has left DEQ and taken a position with Hart & Crowser as a senior engineer. Who conducts the quarterly site inspection?

Mavis

There was a quarterly site inspection scheduled for Sept 22nd. I don't know if Jill attended - I didn't attend and I haven't seen an inspection report yet. The other activity was a camera inspection of the Gould connection to the City's storm sewer on front avenue - it appears to be leaking and the City has picked up Rhone Poulenc type contaminants coming from the line which is likely groundwater infiltration. I think the plan is to slip liine a portion of the line. Tom Roick at DEQ NWR has been handling that project with AMEC. I'll forward you a couple of emails so you can see who the contacts.

Chip

Chip, I have been assigned to take over the Gould site from Jill Kiernan. Can you tell me what has been happening at the site, if anything, between July and September 2006? Thanks.
